Sell Retail Items in the Kilo Members App

2026-11-23 - Sandy Tannheimer - Feature Updates

You can now sell your gym's retail items, such as apparel, water bottles, and supplements, right in the Kilo Members app. Athletes browse your store from their phone, add items to their cart, and either pay with a saved card or bank account, or add the purchase to their next invoice.

Highlights:

- Choose exactly which retail items athletes can see and buy in the app
- Feature your favorite items on the Kilo Members app home screen
- Pause the whole store with one toggle, without unpublishing each item
- Let athletes pay now or add the purchase to their next invoice

For the full walkthrough, see Set Up Your Retail Store for the Kilo Members App.
