Photo Dimensions Guide

Mavilyn Carlos - 2026-09-09 - Website Resources

We provide a downloadable PDF for each website template we offer. Each guide includes **exact image sizes** for background images, coach bios, blog thumbnails, and more.

This ensures your site looks clean, fast, and professional, with no stretched or blurry images.

Here is the list of photo dimensions for each template:

- Pistol template
- Oslo template
- Blackwater template
- Alpine template
- Jago template
- Slate template
- Helix template
- Cellar template
- The Mark Fisher template
- Vega template
- Boss template
- Carbon template
- Vector template
- Drift template
- Vector Cohesive template
- Drift Cohesive template
- Prism template

To resize images for best fit, we recommend BeFunky Photo Editor. If you need to compress a large image file, CompressJPEG, CompressPNG, and TinyPNG are great resources for that purpose.

Having trouble adding photos to your site? Email our Support team at **hello@usekilo.com** and include the image and its ideal placement.
