Private Links for Packages

Laura Gibson - 2026-09-08 - [Sales Portal](#)

Private Sales Portal links introduce greater control over visibility within the Sales Portal. You can mark **Packages** as **Private**, just like Billing Plans.

Owners can set a package as "private," generating a unique, secret URL. Only users with this link can access the package— it will not appear publicly in the Sales Portal. This is perfect for offering exclusive deals or targeted packages to specific athletes.

Once a package is marked as Private, the secret link will be automatically generated and ready to share directly with your intended recipients.

The screenshot displays the 'Strength and Conditioning (12x/month)' package settings in the Kilo Sales Portal. The interface is divided into sections for enabling the package, setting billing plans, and configuring the checkout flow. The 'PRIVATE' status is selected, and a unique package link is generated. The 'Billing Plans' section shows the 'Dollar Plan' with a 'Requires payment method' dropdown set to 'Yes'. A 'Checkout Flow' section is also visible at the bottom.

Strength and Conditioning (12x/month)

Enable this package in the sales portal and configure settings.
