## Provider-Based Day View

Laura Gibson - 2026-09-08 - [Calendar & Scheduling](#)

The Day view on desktop for Owners and Staff displays a **provider-based schedule layout**, replacing the previous list-style view.

This view makes it much easier to see what's happening across your coaches and service providers at a glance.

### How to Access the Provider-Based View

The provider-based layout is available when viewing the schedule on a **laptop or desktop screen size**.

To find it:

1. Go to **Schedule**
2. Select **Day** view (top of the calendar)

That's it — the provider-based layout will appear automatically on desktop.

### Mobile View Remains the Same

Due to screen width constraints, the **mobile Day view will still display the original list-style format**.

This ensures the schedule remains easy to navigate on smaller devices.

### No Impact to Your Website Calendar

This update only affects the internal schedule view for Owners and Staff.

Your **embedded calendar on your gym website will not be impacted** and will continue working exactly as it does today.
