Set a Default Dashboard in GLM

Mavilyn Carlos - 2026-07-25 - [Dashboard](#)

You can set any dashboard as your **default dashboard** in **Gym Lead Machine (GLM)**, so it's the first thing you and your team see when you log in.

How to Set a Default Dashboard

1. Go to the dashboard you'd like to set as the default. This should be your primary dashboard with the key metrics that are most important for your gym team.
2. Click the **three-dot menu** in the top right corner of the dashboard screen.

1. Select **Set as Default Dashboard** from the dropdown menu.

1. Follow the prompts to confirm setting this dashboard as the default.

If you have questions about setting a default dashboard in Gym Lead Machine, our Support team is happy to help. Reach us at **hello@usekilo.com**.
