Use Table Charts on Dashboard Widgets

Mavilyn Carlos - 2026-07-25 - [Dashboard](#)

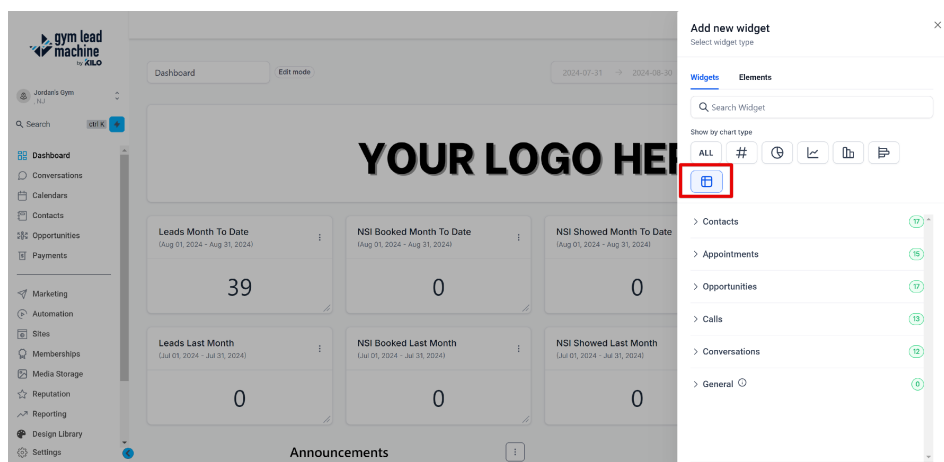

You can display dashboard data as a **table chart** in **Gym Lead Machine (GLM)**, giving you a column-based view of the metrics in any widget.

How to Add a Table Chart Widget

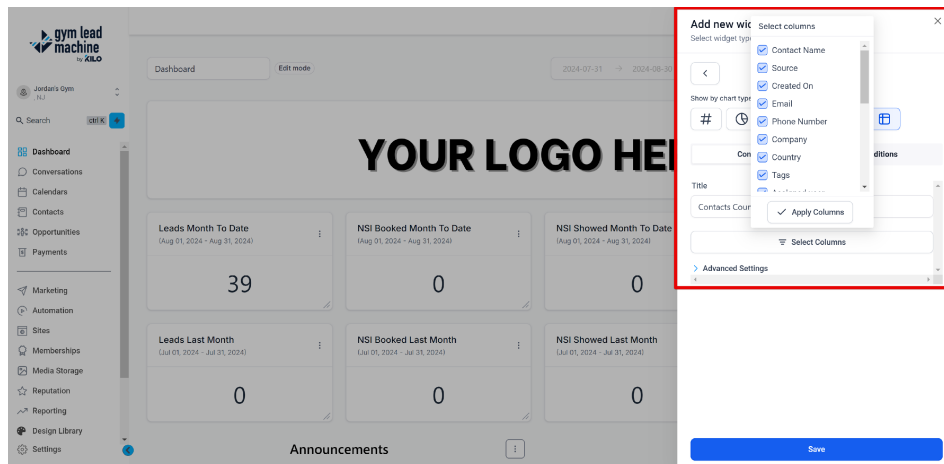

1. Go to your dashboard, click the **edit icon**, and then click **Add Widget**.

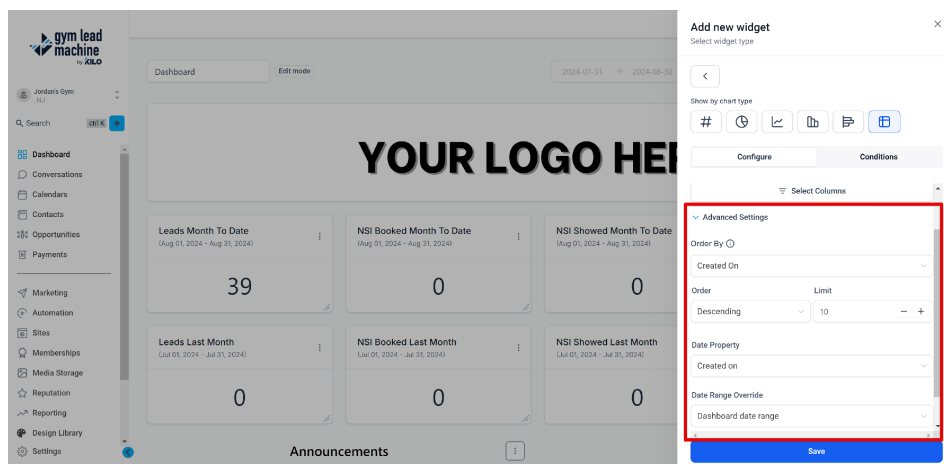

1. Scroll down to the widget you want to add and change the chart type to **Table**.

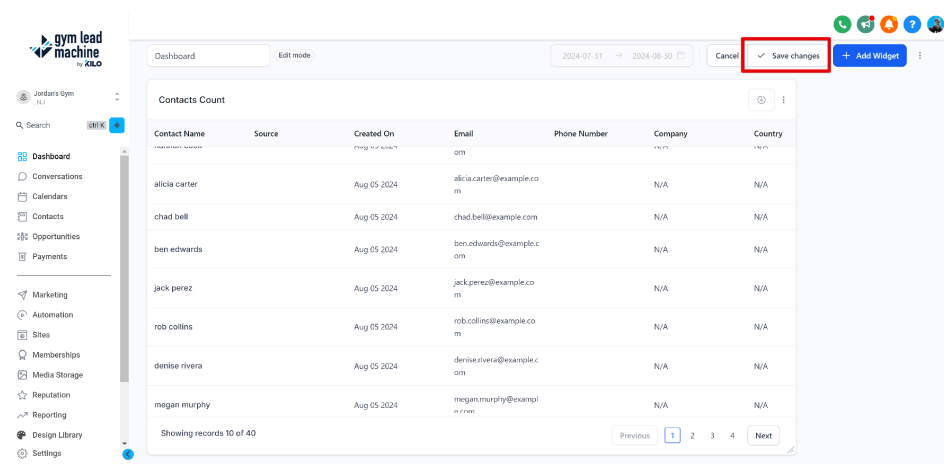

1. Click **Select Columns** to manage the columns you want on your widget.

1. In **Advance Settings**, choose the column you want to order the table by.

1. Click **Save** to add your widget to the dashboard.

If you have questions about table charts in Gym Lead Machine, our Support team is happy to help. Reach us at **hello@usekilo.com**.
