Bulk and Recurring Scheduling for Appointments and Classes

2026-08-12 - Sandy Tannheimer - [Feature Updates](#)

You can now create multiple appointments or classes in a single scheduling flow, whether they're one-off sessions on different dates or part of a recurring series. This means less repetitive clicking and fewer notifications flooding your athletes' and coaches' inboxes.

Highlights:

- Create up to 15 one-off appointments or classes in one submission
- Set up recurring series that repeat weekly, every two weeks, or monthly
- Get one summarized notification instead of a separate one for every session
