Committed Club Progress for Athletes in the Kilo App

2026-10-27 - Sandy Tannheimer - [Feature Updates](#)

Athletes at gyms that run a Committed Club program can now track their monthly check-in progress right from the Home screen of the Kilo Members app. The **Committed Club** card shows each athlete where they stand against your gym's monthly goal, and it uses whatever name you've given your program.

- Shows each athlete's check-ins for the month, your gym's goal, and a progress bar that fills in as they get closer
- Celebrates the month an athlete reaches the goal with a "New achievement unlocked" badge and a "Welcome to the 12 Club" message (using your gym's goal number)
- Counts class and appointment check-ins from the front desk, the kiosk, or a staff member, and resets for every athlete at the start of each month

To see the card, athletes need version **1.3.2** or later of the Kilo Members app and an active, on-hold, or upcoming package at your gym, and your Committed Club program needs to be set up and visible to athletes.

For the full athlete walkthrough, see [Track Your Committed Club Progress in the Kilo App](#). It's written for your athletes, so you can send them the link directly.
