Leaderboard Rankings Now Live in the Workout Tracker

2026-08-04 - Sandy Tannheimer - [Feature Updates](#)

You can now see real-time, competitive rankings on the Leaderboard in Workout Tracker. Coaches see live standings in the Kiosk while a class is logging results, and athletes can check their own rank and percentile right in the Athlete App after submitting a score.

- Automatic ranking by movement, using the scoring type you've already set up
- Optional Scaled, RX, and RX+ level groups, so athletes are only compared to others at the same level
- Filter standings by gender, date, and level on both the Kiosk and the Athlete App

For the full walkthrough, see [Setting Up and Using the Workout Tracker Leaderboard in Kilo GMS](#).
