Redesigned Sales Portal Checkout

2026-10-02 - Sandy Tannheimer - [Feature Updates](#)

Buyers checking out through your gym's Sales Portal now move through a single-page, six-step flow, from choosing a billing plan to confirming payment, with an order summary that stays in view and updates as they go.

- Shows a quick plan-selection modal before checkout opens for packages with more than one billing plan
- Shortens checkout for returning buyers, with their profile details and saved cards ready to use
- Pulls athlete fields, contract clauses, and waivers straight from your Kilo GMS package settings

For the full walkthrough, see [The Sales Portal Checkout Flow](#).
