Tip of the Week #105: Build Workflows Faster Using AI

2026-09-08 - Tom Regier - [Tip of the Week](#)

Gym Lead Machine now includes **Workflow AI Builder**, so you can create a complete automation just by describing your goal in plain language. Instead of manually configuring triggers and actions, you generate a workflow, review what the AI built, and refine it with more prompts until it's right.

- Generate a full workflow, triggers and actions included, from a single prompt
- Refine it with follow-up prompts or target specific steps with Point and Edit
- Plan out a workflow in Chat Mode before you commit to building anything

For the full walkthrough, see [Build Workflows with AI in GLM](#).
