Tip of the Week #110 - Diagnose Mobile App Notifications in GLM

2026-10-13 - Tom Regier - [Tip of the Week](#)

You can now test notifications on your phone directly from the Gym Lead Machine mobile app. **Diagnose Notifications** checks your phone's settings, sends you a real test notification, and shows you exactly what to change if alerts about new leads, messages, and appointments aren't reaching you.

- Run four checks with one tap: Network, Notifications, Sound, and Test delivery
- Confirm a real test notification arrives on your phone
- Copy your results to send to our Support team if something still isn't working

You'll find it in the app under **Settings → Additional Resources → Diagnose Notifications**.

For the full walkthrough, see [Diagnose Mobile App Notification Issues in GLM](#).
